---

## SUMMARY

Computer Science graduate with a Bachelor's Degree, experienced in web development, Linux administration, and automation. Skilled in problem-solving, teamwork, and optimizing workflows through modern frameworks, scripting, and DevOps practices.

---

## EXPERIENCE

### Department of Labor and Employment Intern

Iloilo City

September 2024 – December 2024

- Reviewed and processed 50+ Construction Safety and Health Program (CSHP) submissions weekly, ensuring compliance with government standards.
  - Maintained accurate records of 100+ CSHP applications, streamlining data management and retrieval.
  - Provided general front desk support, assisting clients, and answering queries.
- 

## PROJECTS

### Archie

Personal Project

- Automated Linux installation via shell script, reducing setup time by 80%.
- Configured BTRFS subvolumes, full-disk encryption (LUKS), and systemd-boot for enhanced system integrity.

### Debbie

Personal Project

- Developed an end-to-end post-install script for Debian servers, cutting setup time by 70%.
- Automated the deployment of Nextcloud, Syncthing, and GeoServer, ensuring secure and consistent server environments.

### Dotfiles

Personal Project

- Streamlined development tasks with custom Tmux keybindings and efficient plugin management, improving productivity.
- Reduced Neovim startup time by 30% through optimized lazy loading and customized configuration.

## My Portfolio

### Personal Project

- Created a visually appealing and mobile-friendly portfolio using Astro, Tailwind CSS, and shadcn/ui, improving overall user experience and accessibility.
- Successfully deployed the portfolio using AWS, reducing load times by 40% and improving scalability, while gaining hands-on experience with cloud infrastructure and deployment best practices.

---

## EDUCATION
